

European and World Championships Bid

Univela proposes to host the A-Cat World Championship in the first week of September 2027 and the A-Cat European Championship in the last week of May 2029

We are pleased to submit Univela's bid to host the A-Class Catamaran World Championship in the first week of September 2027 and the A-Class Catamaran European Championship in the last week of May 2029.

Located in Campione del Garda, on the north-western shore of Lake Garda, Univela offers a unique combination of sporting facilities, hospitality services, and event organization expertise in one single venue. Founded in 2012 with the specific aim of hosting teams, events, and competitions, Univela has developed into an established international destination for high-level sailing and sports events.

Campione del Garda is widely recognized for its exceptional wind conditions and for its natural setting, which make it an ideal venue for top-level racing as well as for outdoor activities and hospitality. This unique environment offers athletes, teams, officials, and accompanying guests the opportunity to experience not only a world-class regatta venue, but also a complete and memorable event destination.

For the organization of the championship, Univela can provide a fully equipped regatta office with three rooms featuring Wi-Fi and air conditioning, including dedicated spaces for the secretariat and media team, the race committee, and the jury and protest room. The venue also offers extensive ramp and boat park facilities, with storage capacity for up to 140 catamarans and 100 trailers, as well as a dedicated hangar for measurement operations and technical management.

Our proposal includes three days of measurement, five racing days for the European Championship and six racing days for the World Championship. The event infrastructure includes two race courses with four race committee vessels, 10 to 12 safety motorboats, and race medical support with a dedicated doctor.

Univela is also able to provide full accommodation and travel costs for 10 race officers and 5 international jury members, together with a dedicated secretary office. Media coverage is included through professional photography, video production, and social media management in order to ensure strong visibility and communication before and during the event.

COMITATO ITALIANO PARALIMPICO
ITALIAN PARALYMPIC COMMITTEE

The social and hospitality program is designed to enhance the overall championship experience and includes opening and closing ceremonies with drinks and appetizers, two social dinners, and five music evenings. In addition, boat and trailer storage from the traditional Univela A-Cat Regatta, up to 45 days before the event, can also be made available.

Univela's bid is supported by a strong record of international event organization, including the Moth Worlds 2012, Waszp Worlds 2017, Formula Kite Worlds 2019, iQFOiL Worlds 2021, Splash Europeans 2022, Nacra 15 Worlds 2022, Flying Dutchman Worlds 2022, WingFoil Europeans 2022, and Finn Europeans 2023. Our experience with the A-Class is equally solid, with the organization of the A-Cat German and Austrian National Championship in 2017, the A-Cat Easter Regatta from 2018 to 2026, the A-Cat Univela Trophy from 2019 to 2026, and the A-Cat Italian National Championship in 2020.

In terms of hospitality, Univela offers hotel, apartment, and hostel accommodation solutions, with a total of 42 rooms and 170 beds, as well as a private beach and four Paralympic-accessible rooms. The venue also provides a full range of additional services and activities, including a restaurant, sailing club, professional gym, sailing school, cabin cruiser excursions, catamaran courses, SUP and kayak activities, canyoning, and other outdoor sports experiences.

Through this bid, Univela presents itself as a reliable, experienced, and fully equipped partner for the successful delivery of a major international A-Class championship. We are confident that Campione del Garda and Univela can offer the A-Class community an outstanding combination of sporting excellence, operational quality, hospitality, and event atmosphere.

A scenic view of a fjord with steep mountains and colorful paragliders. The sky is blue with scattered white clouds. The water is a deep blue-green. Several colorful paragliders are visible in the air, scattered across the lower half of the image. The mountains are rugged and covered in green vegetation. The overall scene is vibrant and adventurous.
